

The Guam Community Coral Reef Monitoring Program
& National Park Service Present...

SCIENCE SUNDAY

Sunday, April 27, 2014
2:00 PM

T. Stell Newman Visitor Center

Guam EPA

Let's Talk Climate Change!

How are island communities adapting to the effects of climate change? What are the predictions indicated by climate change? Collaborative speakers will share the process of creating a Local Early Action Plan (LEAP) that can help Guam communities work together to learn about and address potential impacts to our natural and social resources associated with climate change. Ask the experts or share your outlook on this topic!
